

Unity House provides respite care and housing, rehabilitative, and employment services for adults with developmental disabilities, mental health illnesses, and/or chemical dependencies from which they are recovering. We partner with these individuals to develop their personal skills and potential, enabling them to live more full and independent lives.

Our mission is to empower and enrich the lives of people in recovery, coping with a mental illness, and/or diagnosed with a developmental disability. This is accomplished by offering services and supports in an inclusive, person-centered environment.

Unity House is committed to providing consumer-centered and consumer-driven services, programs, and supports, serving more than 700 consumers a day in six central New York counties (Cayuga, Tompkins, Wayne, Onondaga, Seneca, and Ontario). The agency also seeks to free our communities of misconceptions associated with disabilities through innovation, education, and advocacy.

Unity House is a significant human services asset in Central New York. While absolutely necessary to sustain our services and programs, the state sources of revenue that fund our basic operating costs do not cover the unfunded mandates that are essential to the well-being of our consumers. Nor does that revenue keep pace with the growth that is essential to keep our function vibrant. As Unity House faces substantial statewide budget cuts, we need your help more than ever.

Calling Upon Our Friends

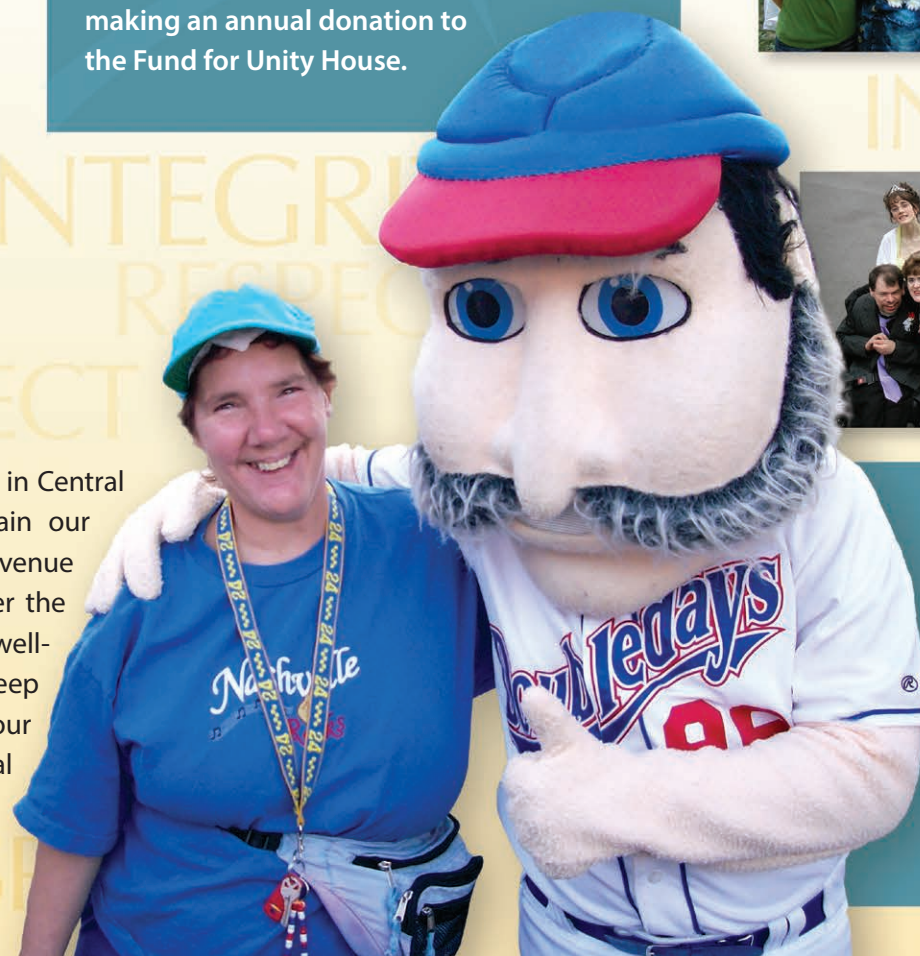

Unity House depends on the generosity of individuals, corporations, government entities, and foundations to provide the superior services and programs its growing consumer population needs and deserves. The new Fund for Unity House brings in unrestricted dollars every year to support the agency's general operation. We are building a family of devoted donors upon whom we can rely for yearly financial support. Our consumers need you.
